DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 25 August 2004 has been entered.

Ex-Parte Quayle

2. This application is in condition for allowance except for the following formal matters:

Claim Objections

3. Claim 1 is objected to because of the following informalities:

Regarding claim 1, line 6: Replace "not in questions" with --not in question-- so as to be grammatically correct.

Appropriate correction is required.

Response to Arguments

4. Applicant's arguments filed 25 August 2004, with respect to claims 1-8 have been fully considered and are persuasive. The rejection of claims 1-8 has been withdrawn.

Allowable Subject Matter

5. Claims 1-8 are allowed.

6. The following is a statement of reasons for the indication of allowable subject matter:

The best prior art of Vanstone and Fite fails to particularly teach the limitation of employing a single round trip authentication scheme to indicate a successful authentication and where the authenticity of the server is not in question. Hence the best prior art of record fails to teach the invention as set forth in claims 1-8 and the examiner can find no teaching of the specific single round trip authentication system, nor reasons within the cited prior art or on her own to combine the elements of these references other than the applicant's own reasoning to fully encompass the current pending claims. In addition, see applicant's reasoning in amendment/response filed 25 August 2004.

7. As allowable subject matter has been indicated, applicant's reply must either comply with all formal requirements or specifically traverse each requirement not complied with. See 37 CFR 1.111(b) and MPEP § 707.07(a).

Conclusion

8. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure: U.S. Patent No. 6,061,346 to Nordman which discloses a secure access method and associated apparatus for accessing a private IP network, U.S. Patent No. 5,794,139 to Mizikovsky et al. which teaches automatic generation of private authentication key for wireless communication systems and U.S. Patent No. 5,729,537 to Billstrom which teaches a method and apparatus for providing anonymous data transfer in a communication system.

Art Unit: 2876

9. Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.

10. Any inquiry concerning this communication or earlier communications from the examiner should be directed to **Lisa M. Caputo** whose telephone number is **(571) 272-2388**. All Internet e-mail communications will be made of record in the application file. PTO employees do not engage in Internet communications where there exists a possibility that sensitive information could be identified or exchanged unless the record includes a properly signed express waiver of the confidentiality requirements of 35 U.S.C. 122.
